

IX SEQT Summer School

MEDICINAL CHEMISTRY AND CHEMICAL BIOLOGY IN DRUG DISCOVERY: THE PHARMA PERSPECTIVE

15-17 de julio 2025, Bilbao

The IX SEQT Summer School is organized by the Spanish Society of Medicinal Chemistry (SEQT) and Faes Farma to bring young researchers working in chemistry and health sciences close to the pharmaceutical industry. Held in Bilbao, this edition offers a unique chance to explore cutting-edge research in drug discovery while gaining a full understanding of the pharmaceutical development process.

Workshop topics and speakers

Drug Discovery Program Introduction	Alejandro Revuelto (Lilly)
Target ID and Validation Strategies	Manuel Sanclemente (Lilly)
Hit ID and Validation Strategies	Gianluca Sbardella (EFMC)
New Technologies in Organic Chemistry and application to Medicinal chemistry	José Enrique Gómez (Johnson&Johnson)
ADME properties and designing by purpose	Jordi Bach (Almirall)
Drug development & Scale up	Jacobo Cruces (Galchimia)
Drug delivery: Formulation, Optimization & Bioavailability	José Luis Velada (Faes Farma)
Regulatory Toxicology & Pharmacology	Mridvika Narda (Almirall)
Clinical development	Ana Palma (Faes Farma)
Introduction to the Patent System	Iain A. McGeoch & Susana Egusquiguirre (ABG Intellectual Property)

Students will be accommodated in the Silken hotel in Bilbao and the sessions will be held in the new Faes Farma facilities. It will create a perfect setting to connect, share ideas and engage in scientific exchange with professionals from the pharmaceutical industry. Each participant will take part in flash presentations (two minutes) and poster sessions. The pharmaceutical environment will be experienced in tours to Faes Farma facilities. To foster interaction with the experts, attendance is limited, so early registration is highly recommended. Don't miss out on this unique opportunity!!!
