

VIII SEQT Summer School

MEDICINAL CHEMISTRY AND CHEMICAL BIOLOGY IN DRUG DISCOVERY: THE PHARMA PERSPECTIVE

Sociedad Española de
Química Terapéutica

GalChimia

19-21 June 2023, Santiago de Compostela

EFMC
Certified School

The VIII SEQT Summer School is organized by the Spanish Society of Medicinal Chemistry (SEQT) and GalChimia with the aim of approaching the pharma industry to young researchers, both graduate students and post-doctoral associates working in the chemistry and health sciences related fields. The School will be held in Santiago de Compostela. During three days, the participants will have the opportunity to learn about the latest research trends in pharmaceutical drug discovery and development.

Workshop topics and speakers

- * Targeted Protein Degradation.
- * Modern Medicinal Chemistry: the lamppost effect and premature conclusions.
- * Medicinal Chemistry and Chemical Biology for drug candidate identification.
- * New technologies in Organic Chemistry and their application to Medicinal Chemistry.
- * Scale-up in Drug Discovery: from a Route to a Process.
- * ADME properties and designing by purpose.
- * Photochemistry.
- * Entrepreneurship.
- * William Farnaby (CeTPD, University of Dundee)
- * Gerhard Müller (SpiroChem AG)
- * Yves Auberson (Novartis)
- * José Enrique Gómez Pulido (Janssen)
- * Jacobo Cruces and Mónica Carreira (GalChimia)
- * Jordi Bach (Almirall)
- * Juan A. Rincón (Lilly)
- * Mabel Loza (Kaertor Foundation)

Accommodation will be provided at a hotel in Santiago de Compostela wherein the students will have the exclusive opportunity to share their scientific work and experiences with the panel of industry experts. In order to foster these discussions, all students will be required to participate in flash presentations (two-minute/1-slide presentation of poster highlights) and poster sessions. Among them, the panel of industry experts will select 5 students for a short oral communication during the final day of the school.

A tour around GalChimia facilities is also planned.

It is our pleasure to launch a special offer for the joint participation in the VIII SEQT Summer School and in the IX SEQT Young Research Symposium (June 22, Santiago de Compostela).

In order to facilitate the interaction with the experts, the number of attendees is limited, so early registration is highly encouraged. Don't miss out on this opportunity!

Organizing Committee

Beatriz de Pascual Teresa (Univ. San Pablo CEU)
Jacobo Cruces (GalChimia)
Marta Gutiérrez Rodríguez (IQM, CSIC)
Mónica Carreira (GalChimia)
Eva M^a Priego (IQM, CSIC)

Board Members

Jordi Bach (Almirall)
José Enrique Gómez Pulido (Janssen)
Carles Galdeano (UB, ONIRIA Therapeutics)
Barbara Noverges (FAES Farma)
Mabel Loza (USC, Kaertor Foundation)
Sara Preciado (Enantia)
Antoni Torrens (Welab)
Myriam Pastor (Lilly)
