

The **SEQT**, the Spanish member of the European Federation for Medicinal Chemistry (EFMC), is organizing the 21st National Meeting “**New approaches in drug Discovery: Expanding Horizons for Therapeutic Solutions**”, to be held at the cicCartuja Center and the University of Seville, Spain, on June 15-18, 2025. The scientific program will include plenary and keynote lectures, oral presentations, poster sessions, and discussions on emerging topics in our field, covering the main stages of modern drug discovery.

The program will be enriched by a trade exhibition and a vibrant and enjoyable social program.

We look forward to welcoming you to this exceptional event and encouraging you to engage actively in what promises to be an unforgettable experience.

IMPORTANT DATES:

- **Deadline ABSTRACT SUBMISSION for ORAL COMMUNICATIONS** **31/03/2025**
- **Deadline ABSTRACT SUBMISSION for POSTER COMMUNICATIONS** **30/04/2025**
- **Deadline EARLY BIRD REGISTRATION** **01/05/2025**

CONFIRMED SPEAKERS TO DATE:

Plenary Lectures:

Gunda Georg (Department of Medicinal Chemistry, University of Minnesota, USA)

Maria Laura Bolognesi (University of Bologna, Italy)

Alessio Ciulli (CeTPD, University of Dundee, UK)

Antonio Pineda (CIMA, University of Navarra, Spain)

Keynote Lectures:

Teresa de Haro (UCB, Belgium)

Juan Miguel Jimenez (Johnson & Johnson, Belgium)

Tilly Bingham (Cumulus Oncology, UK)

Rebeca Deprez-Poulain (University of Lille, France)

Nathaniel I. Martin

University of Leiden, Netherlands

María Méndez (Sanofi, Germany)

Isabel Rozas (Trinity College, Ireland)

Salome Pinho (University of Porto, Portugal)

Francisco Corzana (University of La Rioja, Spain)

Carolina Alhambra (Eli Lilly, Spain)

María Marco (Glaxo Smith-Kline, Spain)

Valle Palomo (IMDEA Nanoscience, Spain)

Juan Antonio González (University of Granada, Spain)

Noureddine Khiar (Institute for Chemical Research, CSIC, Spain)

Juan José Nogueira (UAM, Spain)

Carmen Ortiz (University of Seville, Spain)

Concepción E. Alonso (University of the Basque Country, Spain)

SEVILLE: History, Tradition, Gastronomy... and Science

Seville, nestled along the Guadalquivir River, is a vibrant city with a rich history spanning nearly 3,000 years. Founded in the 9th century B.C., it has been shaped by diverse cultures, each leaving an indelible mark on its cultural tapestry. This cultural fusion is evident in Seville's UNESCO World Heritage Sites: the Cathedral, the Real Alcázar, and the Archivo de Indias. Seville's urban landscape is a living museum of architectural styles while the city's layout, with its narrow winding streets and enclosed squares, still echoes its Moorish past.

The university atmosphere in the city plays a crucial role in enhancing its vibrant intellectual landscape, driving both cultural and scientific advancements

Today, Seville harmoniously blends its historical legacy with modern dynamism. The city's lively ambiance, colorful traditions, and rich gastronomy offer a unique backdrop for academic and cultural exchanges.

The 21st SEQT National Meeting in Seville provides an excellent opportunity to explore cutting-edge developments in therapeutic chemistry while immersing in the city's captivating environment. Participants can engage in scholarly discourse against the backdrop of Seville's architectural wonders and cultural richness, creating a truly enriching experience.
